

189 Series - Phenolic Case SS Safety Pressure Gauge

Description

189 series gauge has a solid case with a pressure relief rear cover with a safety partition. This gauge is widely used in petroleum, chemical, food, beverage, refrigeration and other production processes, and is used in places where the surrounding environment, process medium and environmental conditions are very harsh.

Material Feature

Case	Phenolic (Polypropylene)	Connection	SS304 (SS316L available)
Window	Laminated safety glass	Thread Size	1/2" BSP (Others available)
Dial	Aluminium/ Customize	Movement	SS304
Pointer	Aluminium	Bourdon Tube	SS316L
Liquid Type	Glycerine or Silicon	Accuracy	1.6%/1.0%*
Protection	IP66	Pres. Range	VAC~9PSI~30000PSI
*Adjustable micrometer pointer available		Working tem	-20°C-70°C
